

### LIVESTRONG DAY UNITES THOUSANDS IN THE FIGHT AGAINST CANCER

LIVESTRONG Day 2007 was a tremendous success. Thousands of people across the country united together to show their support in making cancer a national priority.

Lance and 200 advocates spent the day on Capitol Hill urging elected officials to support the Cancer Screening, Treatment and Survivorship Act of 2007 (S. 1415 and H.R. 2353), new bipartisan legislation introduced by Senators Tom Harkin (D-IA) and Olympia Snowe (R-ME) and Representatives Jan Schakowsky (D-IL) and Sue Myrick (R-NC).

This legislation offers a bold expansion of access to early detection and corresponding early treatment and survivorship services. More than 65,000 emails have been sent to members of the House and Senate in support of these bills since LIVESTRONG Day on May 16. You can keep the momentum going by asking your members of Congress to co-sponsor The Cancer Screening, Treatment and Survivorship Act of 2007.

To complement the efforts in Washington, D.C., approximately 230 LIVESTRONG Day events were held in communities across the country to increase awareness and show support for the fight against cancer. Further, 20 states and more than 25 cities across the country recognized LIVESTRONG Day with official proclamations.

From the Empire State Building shining yellow on LIVESTRONG Day to a luminaria event in Las Vegas to an online "yellow" recipe contest, realidad no hay nada de que preocuparse porque los pasos sucesivos a la instalación del software, son aquellos de encaminarlo para consentir al pc descargar el verdadero software de juego y sucesivamente registrarse con la posibilidad de jugar en el casino online con dinero no verdadero, regalado por el administrador del sitio. thousands of people took action to demand that our nation's leaders invest in resources, treatment and services for people affected by cancer.
